

Decorative Glass for Windows & Doors

Brilliant Cut

Brilliant cut glass designs create a sense of quality and ambience to glazing throughout a property. Striking three-dimensional cut-glass effects are produced using a specialist, high-speed diamond tipped cutting wheel.

Designs shown are some of our most popular, suitable for both windows and doors. Supaseal Glass is happy to recreate customers own brilliant cut designs. Please contact Supaseal Glass direct to discuss any bespoke projects.

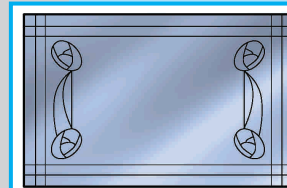

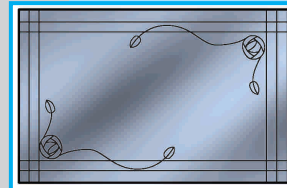

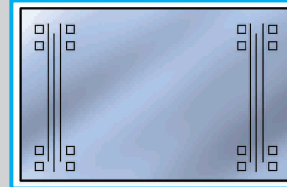

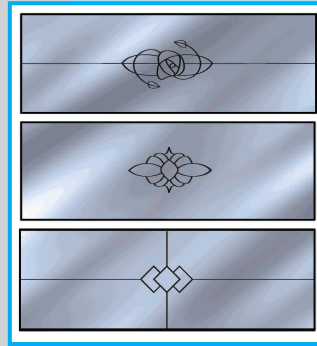

Brilliant cut do not require any special cleaning as the design is etched onto the internal face of a sealed unit.

It can also be etched onto obscured glass to provide an element of privacy, or be created in toughened and laminate glass (complying with BS EN 12150/1).
