

Integral Venetian Blinds- the perfect glazing partner

Integral Venetian blinds provide a unique glazing solution for windows, doors and partitions. Oblivious to dust, moisture and misuse, integral Venetian blinds can reduce the effect of solar gain and sound, improving the ambience and all year round functionality and privacy of most rooms.

Operated by a simple magnetic slider that allows for maximum light, shading or complete privacy, as required. Integral Blinds make a positive contribution to improving the energy efficiency, light and acoustic properties of most buildings at minimal cost.

The perfect glazing partner for

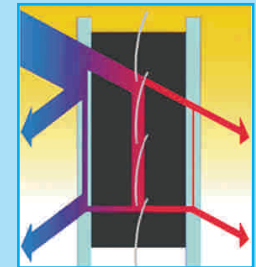

public buildings, integral Venetian blinds offer a totally clean and safe solution with no external cords to compromise hygiene or safety.

Integral Venetian blinds can make a positive contribution to the energy efficiency of windows and doors by reducing solar gain and lowering night time heat loss.

SUPASEAL
GLASS LIMITED
"Enhancing Your View"
